

Engineer's Dwelling (Building 15), Henryton Sanatorium
CARR-1624
Carroll County
Marriottsville Vicinity
1940
Public

The Engineer's Dwelling, Building 15, consists of a two-and-one-half story, three-by-three bay, side-gable cottage. The house features a brick foundation, asbestos shingle siding, and an asphalt-shingle side-gable roof. The windows are six-over-six, double-hung wood-sash units. The front or east elevation contains two hipped-roof dormers with six-light wood windows and a shed-roof porch with two turned-post supports. A paneled wood door penetrates the elevation underneath the porch roof. The west or rear elevation contains a wood door sheltered by a shed-roof hood and three hipped-roof dormers. The center dormer is larger than the two flanking it and contains a six-over-six double-hung wood sash window. The two smaller dormers flanking the center dormer contain six-light wood windows. First story windows on all the dwelling's elevations have been boarded-up.

A 1950s insurance survey of the Henryton Sanatorium describes Building 15 as the Engineer's Dwelling. Based upon the building's materials and form, construction of the house probably occurred around 1940. Documenting the former Henryton Sanatorium during the mid-twentieth century, the Engineer's Dwelling, Building 15, is a contributing element to the proposed Maryland Register eligible Henryton Sanatorium Historic District (CARR-1616). Building 15 does not appear to meet Maryland Register eligibility criteria as an individual resource.

Inventory No. CARR-1624

1. Name of Property

(indicate preferred name)

historic Engineer's Dwelling - Henryton Sanatorium Historic District

other Building 15, Staff House – Henryton Center

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

The Engineer's Dwelling (Building 15) consists of a two-and-one-half story, three-by-three bay, side-gable cottage constructed circa 1940. The house features a brick foundation, asbestos shingle siding, and an asphalt-shingle side-gable roof. The windows are six-over-six, double-hung wood-sash units. The front (east) elevation contains two hipped-roof dormers with six-light wood windows and a shed-roof porch with two turned-post support. A paneled wood door is located on the elevation inside the porch. The west (rear) elevation contains a wood door sheltered by a shed-roof hood and three hipped-roof dormers. The center dormer is larger than the two flanking it and contains a six-over-six double-hung wood sash window. The two smaller dormers flanking the center dormer contain six-light wood windows. First story windows on all the dwelling's elevations have been boarded-up. The building possesses good overall integrity.

Specific dates	1940-1962	Architect/Builder	Unknown
Construction dates	circa 1940		

Evaluation for:

☐ National Register ☒ Maryland Register ☐ not evaluated

Prepare a one-paragraph summary statement of significance addressing applicable criteria, followed by a narrative discussion of the history of the resource and its context. (For compliance projects, complete evaluation on a DOE Form – see manual.)

Documenting the former Henryton Sanatorium during the mid-twentieth century, the Engineer's Dwelling, Building 15, appears to be a contributing element to the proposed Maryland Register eligible Henryton Sanatorium Historic District (CARR-1616) which meets Criterion A and C (See Survey Form for CARR-1616). Building 15 does not appear to meet Maryland Register eligibility criteria as an individual resource.

The 1940 Board of Manager's Annual Report indicates that \$3,043.78 was provided during this year for the construction of the engineer's dwelling (Board of Managers 1940:16). The dwelling was completed soon after this report. As constructed it contained 841 square feet of living space consisting of four rooms and one bath on the first story and three rooms and one bath in the half story above the first floor (Riggs-Warfield-Roloson 1953-59).

The Henryton Sanatorium was one of four state-operated tuberculosis sanatoria established during the early twentieth century that represented a significant part of Maryland's public health campaign to stop the spread of tuberculosis. The first state tuberculosis sanatorium was established at Sabillasville, Frederick County, and opened in 1908. The other state sanatoria established after Sabillasville included Henryton (1923), Mount Wilson (1924), and the Eastern Shore Tuberculosis Sanatorium (1928). The Henryton Sanatorium was the first and only of the state sanatoria established for the treatment of African-American patients, whom statistical trends in Maryland show had a high mortality rate attributed to tuberculosis. The Engineer's Dwelling represents part of the expansion of the Henryton Sanatorium during the 1940s to accommodate the housing needs of hospital staff.

10. Geographical Data

Acreage of surveyed property	46
Acreage of historical setting	105
Quadrangle name	Sykesville Maryland

Quadrangle scale: 1:24 000

Verbal boundary description and justification

The Engineer's Dwelling is located within the proposed boundaries for the Henryton Sanatorium Historic District. The proposed boundaries for the district include all of the historic Sanatorium parcel west of Henryton Road and north of the former B&O Railroad tracks. These boundaries encompass the Sanatorium's historic setting and landscape features, as well as all surviving resources related to the property's use as a tuberculosis facility. The district has been documented as MHT inventory number CARR-1616.
